**Enola, Pa.....November 4, 2008.....**CyberPatrol LLC, a leading provider of parental controls and web filtering technologies today announced their agreement with D&H Distributing to further distribute both CyberPatrol Parental Controls software, business filtering products, as well as an OEM white box version of the software to their established channel. This agreement opens new channels for the distribution of CyberPatrol and fills a void in existing offerings of D&H's product line.

D&H works with small independent resellers as well as large national accounts including VARs, solution providers, system integrators, resellers, retailers, etailers, dealers, installers, education resellers, campus resellers, college bookstores and K12 schools. Its broad reach and breadth of product have contributed to D&H's ability to cater to businesses of all sizes.

CyberPatrol Parental Controls 7.7 is one of the most effective and accurate online safety products used by families and others to block harmful websites, restrict chat, and protect from online predators and cyberbullies. It incorporates SiteCAT, a unique content filtering engine that greatly enhances the product's capabilities. CyberPatrol is recommended regularly as the product of choice by computer magazines.

CyberPatrol business products include SiteSURV and SiteSURV*plus*. These easy to use and cost effective web filtering products and services help companies reduce liability, help enforce actable network user policies, and can increase productivity. Choose from managed web filtering services or PC based filtering software.

“We are pleased to be working with D&H Distributing to get our box product into the hands of their customers. CyberPatrol products are in demand to meet the needs of families, schools, libraries and small businesses to protect them from harmful and unwanted content in today's online environment,” said John Sancin, president and COO, CyberPatrol.

“The CyberPatrol product line is something that will be very appealing to our customer base. We deal with consumers and educational institutions as well as those who reach small and medium sized businesses. This well known brand will carry itself into the many channels we currently serve wherever

there is a need for a robust web filtering technology,” said Rob Eby, vice president of purchasing at D&H Distributing.

### **About D&H Distributing**

D&H Distributing is one of North America's oldest and largest wholesale distributors of computer and consumer electronics products, with an impressive 90-year history serving as a trusted advisor to the reseller channel. D&H distributed the first-ever home computer, the first color television, and even the first gaming system. No other distributor has a greater depth of experience as a one-stop resource for IT and consumer electronics solutions than D&H.

The company's multi-market expertise, dedicated account reps, sterling service and ongoing educational programs reflect its continuing commitment to its customer base. This level of all-around support enables D&H resellers and dealers to become pioneers of the newly-converged technological landscape, encompassing opportunities in the IT, SMB and digital home arenas.

D&H ships out of six separate locations in North America, including its US headquarters in Harrisburg and its new Canadian headquarters in Mississauga, Ontario. Additional US warehouses are located in Jacksonville, FL; Chicago, IL; Dallas, TX; and Fresno, CA. Call D&H toll-free at (800) 340-1001 or visit [www.dandh.com](http://www.dandh.com).

### **About CyberPatrol, LLC**

CyberPatrol is a pioneer and leader in the web filtering market. Launched in 1995, CyberPatrol is specifically developed for ease of use to help protect families and businesses from undesirable or threatening online activity.

In 2008, a group of private investors acquired CyberPatrol. Under the direction of a successful, seasoned executive management team, CyberPatrol then acquired Emerald Technology, Inc. in June of 2008. As part of this acquisition, CyberPatrol acquired SiteCAT, the core technology behind all of CyberPatrol's world class filtering products. These products include CyberPatrol Parental Controls, SiteSURV and SiteSURV*plus*. These cost-effective products are easily implemented and enable businesses to manage employees' Internet access based on their acceptable use policy.

CyberPatrol is recommended regularly as the product of choice for online safety by many parent and computer magazines. Its award-winning software is relied upon and trusted by parents, schools, libraries and businesses around the world to monitor and manage their users' Internet access, while providing them with the freedom and safety to explore. <http://www.cyberpatrol.com>
